OBJECTIVE

Final year student with hands-on experience in Flutter, cloud technologies, and databases. Passionate about building real-world applications and contributing to impactful software projects across mobile, desktop, and cloud ecosystems, while actively growing in AI and cloud computing.

EDUCATION

Bachelors of Science in Information Engineering Technology,   09/2022 – present
National Skills University   Islamabad

TECHNICAL SKILLS

Languages — Dart, Python, C++, SQL

Technologies — Flutter, Firebase, SQLite, REST APIs

Tools & Software — Android Studio, VS Code, GitHub, Figma, FlutterFlow,Postman

Other Skills — UI/UX Design, API Integration, Git Workflow, Debugging, Troubleshooting

PROJECTS

My NSU (Final Year Project), *A comprehensive student app for NSU.*   2024
- Built a university app integrating LMS/UMS via REST APIs for course and schedule management, with real-time notifications (Firebase FCM), SGPA/CGPA calculator, attendance tracking, and authentication. Included advanced modules like a 360° campus map, chatbot, feedback system, and guest access mode. (Screenshots) ⬈

Centralized Timetable Generator, *Web app for automated class scheduling*   2025
- Developed an automated class scheduling system with department-level authentication, smart conflict detection (teachers, rooms, subjects, timings), optimized resource allocation, and PDF report generation through a clean UI. (Screenshots) ⬈

Automated Date sheet Generator, *Software to generates exam date sheets*   2025
- Built a computer application with real-time access to course and enrollment data via institutional APIs, flexible room and shift management, automated conflict resolution, data backup and recovery, and offline-capable PDF report generation. (Screenshots) ⬈

POS Computer Application, *Flutter-based POS system*   2025
- Developed a Flutter-based POS system with barcode scanning, receipt generation and inventory tracking, Included database backup/recovery, multi-store cloud sync, and full offline functionality. (Screenshots) ⬈

CERTIFICATIONS

Google IT Professional Certificate, *Coursera*   2024

Complete Flutter Guide Bootcamp, *Udemy*   2025
